C.I.T. BENEFITS

C.I.T. has chosen and will approve our Original “Preferred Members” that have Brand recognition as valuable as the Blockchain breakthroughs.

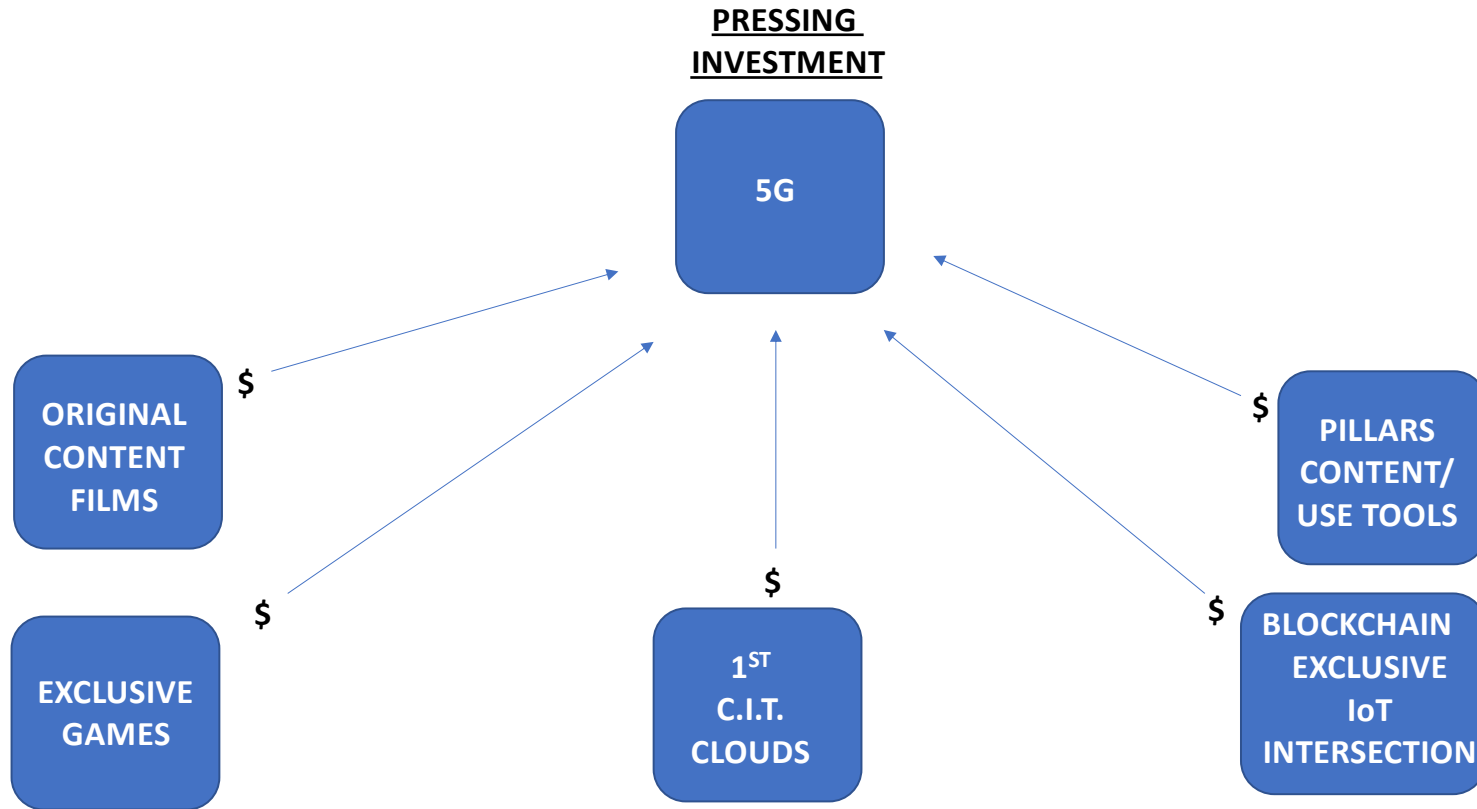

Unlike all other Blockchain companies and organizations that maximize the number of associates to gain global share and influence, C.I.T. prefers very few Preferred Members to ensure they get the elite advantages of utilizing the ultimate international strategy that form a more valuable Sandbox.

The following Power Point Slides will detail each category above and remind the world of Singapore's and the Preferred Members' Brand Qualities below

SINGTEL, STARHUB, SWISSCOM, OTHERS

DELIVERING REVENUE, THRILLING TECH BREAKTHROUGHS, ENTERTAINMENT, AND CLOUD SERVICES

FILM, TV, STREAMING, GAMES, SOCIAL MEDIA

The goal is not to “break the wheel” of Hollywood ...
The goal is to return the wheel to the system that once made it great,
when “creative people” created the magic of film and television.

Delivers a vast treasure of Original Content with no Hollywood legal ties.
Singapore will instantly be the biggest supplier of I.P. to Hollywood.
Deals will be fair, budgets honest, and actors are fully in favor of this!

All global investment, advertising costs, and revenue tracked in Blockchain!
C.F.F. investors feed Theaters, Streaming, Telecoms, and Theme Parks worldwide.

use of tools and in the innovation
that comes from the merging of ...**

The way the books and films are designed to inter-link delivers innovations that no competing Tech company can match. If even one of the 5 divisions was missing the formula would fail.

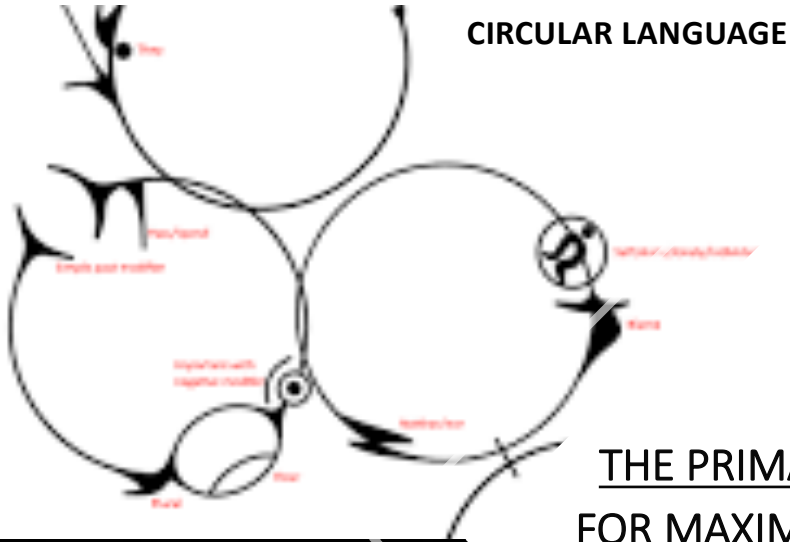

Delivering all 5 at once gives it the power of the human hand.

The Games, Films, Streaming, T.V., and Hyper-Goals provide instant rewards for users in a new 5G world, which is essential to both the scale and spirit of Blockchain use.

Engaging in what the books present will be fun and immersive, due to the combined contents being in video form.

Delivering this daily for 3 months prevents the social good of the books from being hijacked by “bad players.”

Defining Blockchain is the ultimate asset, because now it can be measured, secure, and beneficial.
