THE GRASP POWER OF "THE C.I.T. HAND"

IGNORING THE ARROW OF TIME

Is our Universe "Conscious" of Humanity?"

**This image of the cosmos –
The Eye of God
- illustrates ways that it is aware.**

**It all begins with accepting that the
fundamental essence of our Universe
is
WILL.**

***And the “Field” of Will
is to reach any form of “highest potential.”
This exists in every particle and idea in our reality.***

**Yet, people, businesses, and the systems
created by governments need proof and tools
for this "now" ...
not years from now.**

**We actually *are* ready for this abstract way
of stimulus overload, just like we were ready
for the Internet but didn't know it at the start.**

**C.I.T. delivers this thrilling advantage,
if you engage in the all the books at once.**

**Our brains and hands
were designed to expand
the powers of our Minds,
so that one day
we would recognize the
“Ultimate Language”
that evolves Will ...
to traverse the following stages of
Information, Intelligence, and ultimately –
Elegance.**

**The Universe is not hoping for us to
“realize” the moment to make this quantum leap is now ...**

**The Universe is expecting us to
“Engineer” and “Symbolize” this quantum leap is now.**

**This bigger picture – this more elegant design –
emerges when preconceptions that
prevent “pattern recognition” are minimized,
which requires re-imagining language and our bodies.**

**This is the ultimate goal of designing the books and media -
to function like Nature or our Cosmos functions...
and of proving the potential of Blockchain ...
that it can achieve this through correlating other Sciences:
Biology, Physics, Mathematics, Humanities, Neuroscience.**

DECIPHERING CLUES OF ENERGY

"HOLDING YOUR HIGHER POTENTIAL"

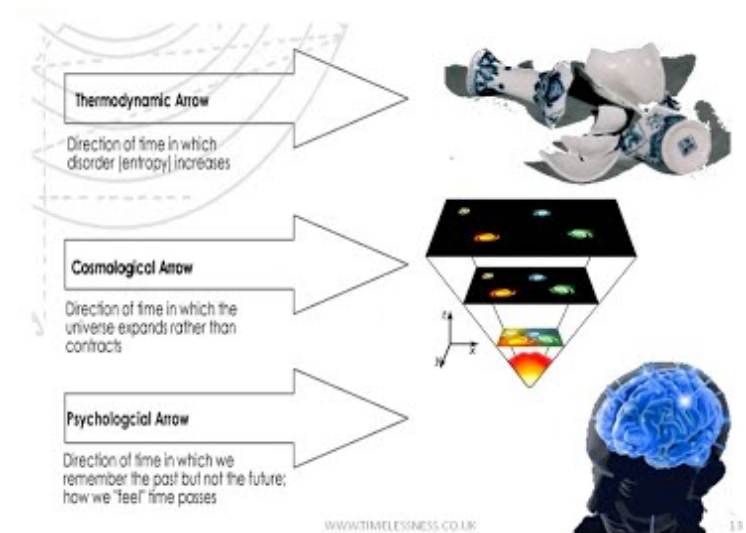

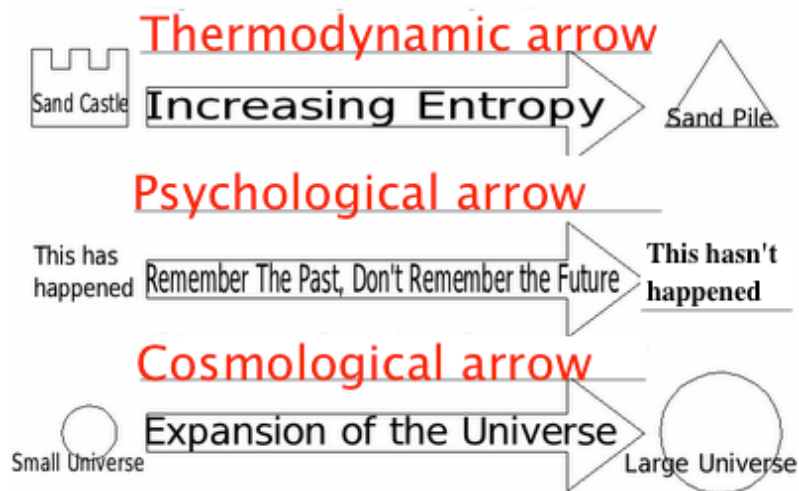

FIRST WE NEED A PLAYFUL GAME
TO UNDERSTAND THE RELATIONSHIP
BETWEEN
THE ARROW OF TIME,
C.I.T.'s "THE MENTAL HAND,"
AND HOW THE BRAIN INCREASES NEURAL NETWORKS.

WHY IS THIS SO IMPORTANT, COOL, AND --

?

- 1. Because even the smallest increase in brain function results in massive gains in “Intelligence” and creativity.**
- 2. Because now we know that the dexterity of the human hand forced increased development of the brain.**
- 3. Because of the way linear language and our concept of Time limit human ability to interpret the Truths and messages of ourselves and our Universe.**

Increased Entropy

[FROM ORDER TO DISORDER]

ENTROPY IN THE KITCHEN

A raw egg exemplifies the asymmetry of time: a fresh one breaks easily, but a broken one does not spontaneously put itself together again, for

the simple reason that there are more ways to be broken than not. In physics jargon, the broken egg has a higher entropy.

One way to
be pristine

Several ways to be
slightly cracked

Myriad ways
to be fully smashed

Low Disorder
Low Entropy

High Disorder
High Entropy

To phrase it in a simpler, more human way ...
the Arrow of Time
and linear language
both make us feel more comfortable
with what we cannot fathom or communicate.

They are two of our
“Human Agreements”
we haven’t modified learning enough to “deconstruct.”

THE ARROW OF TIME POINTS TO THE RIGHT, WHICH SIGNIFIES THE FUTURE AS A DISTANT POINT.
MOST LANGUAGE AND CODE MOVES FROM LEFT TO RIGHT, MIMICKING THE ARROW OF TIME.
LIMITING LANGUAGE THIS WAY LIMITS THE PERSPECTIVE OF THE MIND TO LINEAR EXPANSION.
LIMITING PERSPECTIVE THIS WAY PREVENTS THE MIND FROM RECOGNIZING UNIVERSAL TRUTHS.
PREVENTING THE MIND FROM USING THREE-DIMENSIONAL TIMELESS CORRELATION LIMITS BRAIN STORAGE.
LIMITING BRAIN STORAGE PREVENTS QUADRANTS OF THE BRAIN FROM AGGREGATING HIGHER PROBABILITY.

Consciously encoding these 3 at once
develops higher Mind function
and brain quadrant activation.

BY PRESENTING CHAPTERS OF BOOKS OUT OF ORDER, WE FORCE “PLASTICITY OF THE MIND” TO IGNORE CLASSIC TIMELINES.
ADVANCED KNOWLEDGE, PRESENTED WITH FIRST-STEP KNOWLEDGE, FORCES ABSTRACT CORRELATION.
ENCIRCLING THE USER WITH COUNTLESS ENGAGING, EXPANDING, ENTANGLED VISIONS AWAKENS NEW BRAIN STORAGE.
PRESENTING IMMEDIATE ENGAGEMENT TOOLS AND REWARDS PROVES THE VALUE OF ESCAPING ARROWS OF WORD/TIME.
ANCHORING THIS ALL IN A PHILOSOPHY ON “MEANING” DELIVERS ANSWERS AND VISION OF MORE ELEGANT VALUE.
MORE VALUE AND MEANING IN AN EMERGENT-MIND UNIVERSE TRIGGERS MORE ELEGANT MESSAGES DECLARING –

“WE ARE READY FOR ELEGANT LANGUAGE.”

**CREATING THE BOOKS TO FUNCTION LIKE A HAND
REQUIRES MORE THAN THE USUAL LINEAR TECHNIQUE OF LEARNING.**

**BY IMAGINING OUR BRAIN AS A SERIES OF INTERCONNECTED LOOPS OF LEARNING,
WE CONNECT ABSTRACT IDEAS, AND FORM THEM INTO HIGHER INTELLIGENCE.**

**STEP ONE: DIVIDE HOW WE RELATE TO NEW OR ABSTRACT INFORMATION
INTO EITHER THE FIRST-ROW CATEGORY OF NATURE ...**

OR NURTURE (AMALGAMATED THROUGH OUR SENSES)

STEP TWO: THEN RECOGNIZE THROUGH WHAT FILTER WE TURN THIS INTO INTELLIGENCE

**Most people learned of the concept
that a circular language --**

**-- could free our Minds from The Arrow of Time
in the film "Arrival."**

Here is how Mathematics saw it ...

```

In[2]:= Module[{i = , corners}, corners = ImageCorners[i, 3, 0.1, 5];

Show[{i, Graphics[{{Orange, Thickness[0.003], Outer[If[#1 == #2, {}, {Opacity[3000 / EuclideanDistance[#1, #2]^2], Line[{#1, #2}]}] &, corners, corners, 1}}, {EdgeForm[Green], FaceForm[], Rectangle[# - 10, # + 10] & /@ corners}}]]]

```

Here is how humans with Will saw it.

ARRIVAL
a film by Denis Villeneuve

What is the essential element of our reality?

Our Minds are designed to recognize far more elegant Truths and messages than the reality that science can explain.

Engaging our body – our “Mental Hands” – in the learning process expands Intelligence to interpret reality through multiple senses.

**So ... what “great things” ...
what “great Truths” ...
related to Blockchain Intersections
will we recognize when we free our
Minds from linear Time and language –
yet still get to base the new reality on
proven science, empirical truths, and Laws?**

BITCOIN IS A SCALAR, NOT A VECTOR

Proving Physics Essential To Cryptocurrencies

Correlating Bitcoin Bulls and Exchanges to Vectors

A **Vector** has both **Magnitude** and **Direction**.

And Bitcoin Bulls scream relentlessly “Bitcoin is a Vector” – its Direction is always UP.

Bitcoin surely has Magnitude due to its dominance and price. But it will never have a durable Direction. For this reason **Bitcoin is at best a Scalar**.

If they were honest, all that Bitcoin Whales and Traders actually want is **“Momentum.”**

Momentum is **Mass** and **Velocity**.

Momentum distracts from the fact Bitcoin is not a Vector.

Traders want high **volume and liquidity**, which **means high Momentum**.

Change in Momentum is called **“Impulse.”** (A very appropriate science term for Bitcoin Bulls, eh?)

Impulse swaps out **Direction** in Bitcoin’s case - evident in its use, trade, mining, derivatives, and storing.

Impulse results in **“Collision”** which can be **“Elastic”** (retaining all Momentum) or **“Inelastic”** (lost “Momentum.”)

Impulse (wash trading, manipulation, Hype, hacks) results in high **“Collision”** with **Inelastic** results: destroyed value in assets, reputation, brain power, manpower, political balances. All these deliver is Brand destruction, toxic innovation, strangling regulations, black market use, and money laundering.

Inelastic Collision of a Scalar Bitcoin proves it will never be a “Store of Value.”

**In that one case
we proved the higher elegance achieved
when using multiple sciences like a hand
to grasp innovations and use them like a tool.**

**It requires a circular looping of
scientific proofs,
Tacit and Taciturn messaging,
and overwhelming our senses
by adding bodily learning and awareness.**

**If Bitcoin is a Scalar and not a vector ...
and if it only transfers a store of value
in a “laminar-flow” model that must co-exist in a
“turbulent-flow” financial world ...
does this mean Bitcoin is “bad” or “not valuable?”**

No!

**It just means that now that we understand
what this means to society, investment, and currency flow,
we can unleash the potential of Bitcoin to do “good.”**

**Once we perceive the higher potential for good
it builds things that have meaning for
citizens within a national culture – giving it spirit and scale.**

**For the first time in technological history,
we are aware we're creating an "Organism-Environment."**

If the time is NOW ... how do we make this
FUN?

**Because “engaging” ways of learning,
and learning that creates its own “spirit”
are how new skills “scale”
and become mainstream in society.**
